

Financial Accountant – 12 Month Fixed Term Contract

Location: Leopardstown, Dublin 18

Job Purpose

This position will primarily have responsibility for preparing and implementing various policy and technical system aspects of IFRS 17. This will be an evolving role with the opportunity to participate in all aspects of the IFRS17 implementation. The role will be part of LPINS' IFRS 17 Project Team.

Responsibilities will include but are not limited to:

- Working with Project Team to convert relevant policy positions papers to reflect local positions
- Working with the Project Team on the Data requirements for the IFRS 17 project
- Supporting the IFRS 17 Project team on IFRS 17 technical implementation e.g. aiding in the testing of attributable
- Working with the Project Team on the drafting of financial statement templates on the IFRS 17 Tool to support the new IFRS 17 disclosures and presentation
- Supporting the Project Team with the IFRS 17 Transition and parallel processes
- Assisting and supporting the wider finance team on BAU activities

Knowledge, Skills & Experience

Knowledge

- Prior knowledge of the IFRS 17 standard (not essential but beneficial)
- Strong end user computing skills with MS Office.
- SAP experience an advantage but not a necessity
- Experience of new system implementations

Skills

- Excellent analytical skills and problem solving skills
- The ability to understand and concisely document financial processes
- Excellent interpersonal and communication skills with an ability to work across departmental and organisational lines
- Ability to operate within strict reporting deadlines
- Strong time management and organisational skills with an ability to prioritise workload and multitask several initiatives at the same time
- Excellent team player who fully participates in and supports departmental initiatives

Education and Experience

- Qualified accountant
- At least 2 years PQE experience, preferably gained from the financial services environment
